

Africome

AFRICA

Africome is an owner-run travel company that specialises in designing tailor-made safaris and beach holidays in East Africa, Southern Africa and the Indian Ocean.

The team consists of experienced travel designers and knowledgeable private guides who share a passion for Africa as well as a common goal — to create bespoke, awe-inspiring journeys that enrich travellers' lives and contribute to preserving Africa, its people and its many natural wonders.

No two safaris are the same as every itinerary is individually curated, by understanding the clients' needs and matching them to hand-picked Africa's finest accommodations and on ground expertise. From the choice of the destination down to that of each single activity, every detail is carefully planned to create 'your safari experience'.

Traditional wildlife safaris in destinations such as the Kruger in South Africa or Tanzania's Serengeti are Africome's daily routine, but as an African safari specialist, the company can make a difference by thinking out of the box, suggesting

alternative destinations and safari experiences.

Fancy a heli-safari to the most remote corners of Kenya? Or horseback riding through the Okavango Delta in Botswana? Or exploring the baobab-dotted hills of Ruaha in Tanzania on foot? You can even go on an island-hopping dhow cruise in the Quirimbas Archipelago in Mozambique. The African sky is the limit.

Africome aims to bring safaris to the next level, not just in terms of the locations, but also in the quality of travel. Privacy, freedom and flexibility are key. Privately guided safaris and mobile camping safaris are its speciality, allowing guests to live unique, off-the-beaten-track safari experiences in camps set in exclusive locations, away from the crowds, with dedicated staff and guides.

Imagine staying in your own camp, sitting around the fire with just your family and friends, and going on safari with your own vehicle and private guide, free to explore and enjoy your safari without compromise. It's like having a little corner of African wilderness all to yourself.

NEED TO KNOW
